

If necessary you are entitled to the services of a language interpreter. Please inform us about your requirement for an interpreter upon scheduling your visit. The health care personnel will then arrange for an interpreter from an interpreting agency.

About the County Council

Kronoberg County Council is governed by the County Council Assembly which is made up of 45 elected politicians.

The County Council Assembly decides the actions of the County Council based on the current health situation in the county, health and medical care requirements and the financial framework. Meetings are open for everyone who wants to come and listen. Every meeting allows inhabitants of the county the chance to ask questions regarding the operations of the County Council.

The County Council Board, which consists of 15 elected politicians, manages and coordinates the general administration of the operations.

There are several drafting committees, sub-committees and boards below the County Council Assembly and the County Council Executive Committee, for example:

- Health and Medical Care Committee
- Cooperation Committee
- Culture Committee and the Board of Grimslöv's Folk High School
- R&D Committee
- Public Health Committee
- Patient Advisory Committee

If you would like to obtain more information about the political organisation, log onto the website of the County Council, **Om landstinget, Demokrati och påverkan (About the County Council, Democracy and influence)**, or call 0470 58 85 63.
